Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from Essays on the Secretory and the Excito-Secretory System of Nerves: In Their Relations to Physiology and Pathology The several papers composing the following little volume were on different occasions presented as reports to the American Medical Association, and, with the exception of the Letter to Dr. Marshall Hall, will be found published in the Transactions of that body. They have, at least most of them, been distributed privately to various distinguished members of the profession in pamphlet form. Their scattered condition, as they exist in the volumes of the Transactions, and the proverbially perishable nature of pamphlet literature, have induced us to bring in the close relation of a single volume, our several papers on the Nervous System, which appear to us to have a special relation to one another, in order that we may gain for our views before the reader that advantage which will accrue from a simple juxtaposition and an uninterrupted reading. One of the most distinguished essayists of modern times has remarked, that the rarest works are frequently the most original; for precisely in proportion as an author is in advance of his age, is it likely that his works will be neglected; and the neglect of contemporaries, in general, consigns a book, especially a small book, if not protected by accidental concomitants, at once to the tobacconist or tallow-chandler. This is more particularly the case with pamphlets. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
