Every autumn Monarch butterflies in the Northern Hemisphere travel around 3, 000 miles on their migration to warmer climates, travelling between 50 to 80 miles a day. This migration takes up to three generations to complete, meaning that the journey is somehow built into their beings - they just know where to go and that they need to move. They ride thermals to fly as high as 11, 000 feet and then they soar with the wind, fulfilling their purpose for themselves and for generations to come. Hello and welcome to your guide to exploring and discovering your potential and purpose. This is a step-by-step map to diving deep into your being and finding out who you are and what you want to do in your life. Inside of you is a sparkling seed of possibility and potential waiting to emerge. The things that you love to do, and the way that you enjoy being in your life, are the very things that you were born to be and do. The very things that make your heart sing are the things that the world needs most from you and that will fulfil you throughout your life. -Taken from Chapter One of Soar Like A Butterfly - Discover Your Purpose and Fulfil Your Potential This item ships from La Vergne, TN. Paperback.
