paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment.Paperback. Pub Date: Unknown in Publisher: Higher Education Press List Price: 119.00 yuan Author: Publisher: Higher Education Press ISBN: 9.787.040.356.533 Yema: Revision: Binding: Folio: Published :2012 -8-1 printing time: Words: Goods ID: 22894000 contents Introduction Magnetism is one of the physics of the oldest areas of research. is still full of vigor and vitality. The book details the historical development of the magnetic field. the physical basis of current research work. suitable magnetic as senior undergraduate and graduate teaching reference books related scientists will benefit. Devoted to discussing the basic concepts and modern applications of magnetic magnetism ultrafast dynamics - from the basics to the nanometer scale. and highlights some of the hot issues of the current magnetic studies. Based on the details of the basic concepts of magnetic. this book not only emphasizes the basics of modern magnetism research and technology application. and also highlighted the new experimental methods. such as spin-polarized electron beam and polarized X-ray experiments. In many cases. the use of modern applications are examples to illustrate the basic laws. After a brief introduction to the historical development of the magnetic magnetism - from the basics to the nano-scale ultrafast dynamics details the basic knowledge of the electromagnetic field and the magnetic moment of in-depth discussion of the magnetic interactions. especially solid electromagnetic interaction. then focuses on the spin-polarized electrons and polarization x-ray technology. Subsequently about the physical phenomena in the magnetic properties of the ferromagnetic metal and a magnetic metal: the concept of the spontaneous magnetization. anisotropy. and magnetic domains. the energy band model of the magnetic metal. The resistivity of the transition metals and metal spin-related electronic transitions like. Finally. in the ferromagnetic...
