Createspace, United States, 2013. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.The Electric Engine is the World's first non fuel engine and was invented by the author. It is an electro-mechanical machine that by nature of its design, harnesses the pulling force of electromagnets and transforms this pulling force into powerful rotary motion. It is neither an engine, nor an electric motor, but utilizes some of the electrical and mechanical principles of each to produce a new machine design that will function as a power transmission device to supply mechanical energy to any application where an electric motor, or internal combustion engine now do the same .without using any fuel! This invention is recorded with The United States Government and a prototype has been built and successfully tested (2004). All Patent Rights are released to The Public Domain with the release of this publication. Anyone may now build, use and sell this remarkable invention without License. Numerous financial opportunities abound for anyone further developing this magnetic engine design. The author and inventor, Claims and Reserves all Copyrights to all visual, graphic, pictorial, printed and descriptive materials relating to The Electric Engine (aka The Electromagnetic Engine, The Electromagnet Engine).
