Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from The Story of Kentucky Lying west of the Allegheny Mountains and extending westward for some three hundred miles, bounded, for the most part, on the north by the Ohio River and extending to the Mississippi, lies the State of Kentucky. In its eastern portion, constituting nearly one-third of its area, the surface is broken, and so high as to be termed mountainous. A large area occupying the central third, and in the early day mostly a prairie land, is now known as the famous Blue Grass section. The western third of the State is practically level, being but a few feet above the sea, and cypress swamps are not infrequent. This section is commonly termed The Pennyrile. In the middle of the eighteenth century, Kentucky was a portion of that unexplored western realm belonging by grant to the State of Virginia, and designated as a part of Fincastle County. The eastern portion in the early day abounded in wild game common to the Appalachian forests. The undulating grass lands in the central part of the State provided ample grazing for the herds of buffalo and deer that were found there at the time of the coming of man. The skeletons that have been exhumed indicate that it was the feeding ground of the giant mastodon before the discovery of America. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work.
