This item is printed on demand - Print on Demand Neuware - Seminar paper from the year 2005 in the subject English Language and Literature Studies - Linguistics, printed single-sided, grade: 1,7, Technical University of Braunschweig (Englisches Seminar), course: Introduction to Information Structure, language: English, abstract: From language to language, there are different alternatives in which a speaker can structure information. Information structure deals with the highlighting of pieces of information in sentences. Even though there are a variety of ways in which the same basic informational content can be conveyed, the preference for a particular way reveals how the speaker's semantic representation is transposed into syntactical data. Moreover, the speaker's choice for structuring information into a particular linguistic form shows the coherent way in which utterances are connected in sequences, revealing thus the importance of discourse. There are several syntactic devices that are able to encode the pragmatic information of a preferred alternative. One type of such devices used to mark information structure is cleft constructions. There are two major types of clefts: it-clefts and WH-clefts, also called pseudo-clefts. There has been claimed in the literature for...

Reviews

An exceptional pdf and the typeface utilized was fascinating to read through. It can be written in straightforward words and phrases instead of confusing. I am just quickly could possibly get a delight of looking at a written ebook.
-- Prof. Arlie Bogan

It is a single of the best book. This is for those who state there had not been a well worth reading through. Once you begin to read the book, it is extremely difficult to leave it before concluding.
-- Dr. Barney Robel Jr.
